RCG IT to Speak at the Information & Data Quality Conference

Edison, NJ, August 14, 2008 – RCG Information Technology, Inc. (www.rcgit.com) will participate in the Information & Data Quality Conference in San Antonio, Texas on Tuesday, September 23, 2008. Robert Abate, RCG IT's Global Managing Principal, Development & Integration Practice and Martha Dember, RCG IT's Director, Business Intelligence & Data Delivery- SouthEast Region will be giving their tutorial on the topic of "Implementing and Sustaining a Data Governance Program."

Robert Abate, RCG IT's Global Managing Principal, Development & Integration Practice states, "Attendee's will review the process of what it takes to actually implement a data governance program and how to sustain it over time." Also reviewed will be the organizational requirements: the makeup of required organizations, roles and responsibilities, and data stewardship.

"The attendees will also learn what data governance actually is and the best practices included in data governance programs which lead to trends emerged over the past two years," added Martha Dember, RCG IT's Director, Business Intelligence & Data Delivery- SouthEast Region.

The attendees will not only learn the definition and components of data governance best practices, they will also learn about the relationship of data governance with other components of data management, components and attributes of data governance, high level implementation roadmap, and lessons learned with success stories and not so successful stories.

The IDQ Conference is where information quality practitioners from all disciplines network, validate best practices, and share proven solutions and new ideas. The IDQ Conference is organized by the International Association for Information and Data Quality (IAIDQ) in partnership with Wilshire Conferences.
